

REMARKS

The undersigned wishes to thank Primary Examiner Cephia D. Toomer for the courtesy extended to him during the productive telephone conferences.

In the Outstanding Office Action, claims 1-36 currently of record in the application have been rejected by the Examiner only based on 35 U.S.C. 112, second paragraph. No rejection of the claims based on prior art of record has been provided by the Examiner.

In the Office Action, the Examiner has indicated that the omitted elements in the claims of record are the nexus between the creation of biomass coal and the storage of solar energy.

In the Response, claims have been amended only to overcome the above-discussed indefiniteness rejection and, as required by the Examiner, and to provide the nexus between creation of the biomass coal and the storage of solar energy. Applicant respectfully considers that neither new issue or new matter have been introduced into the application by the Amendment.

The amended version of the claims presented in the Response have been, at least partially, previously submitted to Examiner for her kind review and consideration. It has been indicated by the Examiner during the telephone conversation on June 17, 2008, that such claims are acceptable, obviously subject to further review and consideration.

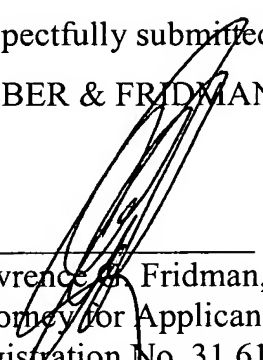

Applicant respectfully considers that the indefiniteness rejection has been obviated by the claims amendment provided in the Response. Therefore, withdraw of the Examiner's rejection and allowance of all claims currently of record in the application are hereby respectfully requested.

Applicants have made the best faith effort to place the present application in condition for allowance. However, if any issue raised by the Examiner remains unanswered, she is invited to call the undersigned at the telephone indicated herein below.

Applicants respectfully petition for two months extension of time for replying. The respective Petition and credit card payment accompany this Response.

A Notice of Appeal accompanied by the required fee is also being filed along with the Response.

Respectfully submitted,
SILBER & FRIDMAN
